DETAILED ACTION

Claims filed within the appeal brief dated 6/08/05 are not within the scope of those filed in the response dated 12/21/04. The action below is based upon the claims in the response dated 12/21/04. The claims filed within the appeal brief will not be considered and are moot being that the claims involve a totally different scope.

Allowable Subject Matter

Claims 14-21 of response dated 12/21/04 are allowed.

The following is an examiner's statement of reasons for allowance: After further review based upon the laws governing patentability, the prior art does not show or teach having a support arm in positions which are mutually exclusive of one another. The language within claim 14 implied that the support arm may be within only one position at a time while utilizing the device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

New drawings are also required. Current drawing of record do not clearly show the invention due to broken lines. Examples of such drawing currently on the record are shown below:
